

Working Group on Antimicrobial Resistance

Following the adoption of [Resolution no. 14 of May 2019](#), a Working Group on Antimicrobial Resistance was established to support the implementation of the [OIE Strategy on Antimicrobial Resistance and the Prudent Use of Antimicrobials](#) and the organisation's capacity to respond to global challenges according to its mandate.

- ✕ Report of the meeting held from 1 to 3 October 2019
- ✕ Report of the meeting held from 7 to 9 April 2020

Working Group on Wildlife

Founded in 1994, this Working Group informs and advises the OIE on all health problems relating to wild animals, whether in the wild or in captivity. It has prepared recommendations and oversees numerous scientific publications on the surveillance and control of the most important specific wildlife diseases. The Working Group comprises world-leading scientific experts in their subject areas.

- ✕ Report of the meeting held from 10 to 13 March 2020
